CELEBRATE IT WORTHILY.

The final opening of the new aqueduct is an event important enough to make a majestic civic display on the occasion a most fitting thing. There is a modesty which lies so close to pusillanimous apathy that an unbiased vision cannot discriminate one from the other.

To let such a worthy cause for municipa pride pass unnoticed seems to be modesty of this kind. The earlier Manhattaners were not so stolid. When the little town of 300,000 souls witnessed the opening of the old squeduct there was public jubilabroke forth in imposing ceremonies and general festivity.

The construction of the new aqueduct is the biggest piece of hydraulic engineering in the whole world. The benefits conferred upon the town by the profuse distribution of water made possible by the new squeduct are of primary impor-

Not only are the citizens enabled to caged, handsome cages having been pro-keep clean, for we might be dirty and vided for them, and each child went home still great, as our streets attest, but it is of enormous help to commerce and a comforting security against the ravages

Celebrate this notable event when it occurs, as that other stupendous work, the Brooklyn Bridge, was celebrated on its eral wear are garnished with ribbons. A completion. It is a worthy occasion.

MR. PLATT MUST PAY WEEKLY.

The Honorable T. C. PLATT has strenuqualy contended that express companies are not subject to the law compelling weakly payment to employees, because such companies were incorporated by special act and were organized as joint stook companies.

Mr. PLATT's vivid interest in express companies needs no explanation to those who know that the honorable ex-Senator presides over the United States Express Company. The wages of this Company's employees have been cut ten per cent. of late, and the Factory Inspector has received numerous complaints and demands for weekly payment.

The Attorney-General has replied to the Factory Inspector's question on this point, that express companies are specifically referred to in the new statute, and hence they cannot escape as joint stock

The British soldiers in revolt is a very largestraw to show how strongly the wind ing in the realms of Her Majesty. There is quite a difference between the redcoats who revolt at small restrictions in garrison during the piping times of peace and the red-coats hurling themselves with heroic obedience against the belching cannon at Balaklava. Let the laureate write an ode on the later Tommy Atkins.

It is not a morbid fastidiousness which requires that the public baths shall be supplied with clean water. Letting sewers empty into them is not a wise scheme for insuring this cleanliness. Sore eyes among the bathers in one such public bath have called attention to the need of a stricter supervision in this matter. Keep the baths clean at any cost,

Americans have a fashion of disdaining a thing because it happened a week ago. The wrong has not been righted, the principle which calls for redress is unimpaired, but-it is past, and the appeal to sentiment has tremendously weakened. It is to be hoped that this will not be the case in regard to the dread event at

How Mr. BEATTIE must rejoice at seeing intervals of silence about the dirty streets. But, dear Mr. BEATTIE, if the commumity were doof and dumb they would still think, oh! how they would think,

THE WAYS OF WOMAN FAIR.

Mrs. Maria Parlos, principal of the cookng school in Roston has a new book in type profusely paragraphed with rare and novel methods of preparing healthful foods, keepng house and making the domestic machine run smoothly. Mrs. Parloa's last book reached the hundred thousand mark, and a similar patronage is predicted for the last production. For all that, honsewives will go right along building cast-iron pie crust. patent leather pan-cakes and bullet biscuit, the smallest consignment of which would destroy a whole ostrich farm. What America needs is not the coming woman but the coming cook.

People worry themselves into chronic in-valids. They become suspicious of their own anatomy, get notions about their liver, lung and heart, develop crank ideas on the sub ject of foods, and not only make themselves but their relatives and friends miserable The internal organs do not want to be thought about. A man's stomach is healthy internal machinery was intended to its work unconsciously. When we begin to think about our stomachs, digestion is arrested John Hunter said be got gout by thinking about his said toe. A man who will be got to the constant of the constant when he does not know he has one. When we are conscious of the existence of if baked potatoes will agree with him, and whether fruits and vegetables are a good combination, is in a fair way to have trouble with the simplest food. Thinking about the internal organs gets them into a sort of stage fright, and they are powerless.

It used to be shet silk; now we are to have the bomb design.

Women of artistic taste can always find some exclusive dress material in the curtain or upholstery department. There is nothing in the whole stock of domestic and foreign cottons to compare with the printed muslins designed originally for sash curtains. Then tion, and the just exultation of their souls there are fine chintz prints, and the gowns they make would win the fancy of Burne Jones.

> A Jack Horner Pie used recently at a birthday party was made over an empty pan, in the side of which had been made a wire door. At the last moment, ten live canary birds were put in it, and when the ribbons birds flew out. They were then caught and the happy possessor of a bird and cage, and filled with wonderment as to the way they got them.

> Skirts of Summer toilets are shaped with great simplicity; many of them are elaborately trimmed, but a great portion for genpretty gray mohair figured with minute silver dots was recently finished, which showed seven rows of black vervet ripbon on the skirt, graduated widths being used. The corsage was correspondingly trimmed.

Only What is most needed is food -good, what is most needed is food—good, wholesome food in abundance for these simple minded women, whose misfortune it is to bring into the world the sickly little ones, who, unless adopted by the public, must starve to death or die of the diseases that view on carelessness and disease that view on carelessness and disease that view on the view of t

diseases that prey on carclessness and neelect.

There is not a more patient sufferer in all New York than wee Georgie Ring, of Cherry street. This three-year-old has been ill all Summer. The other day an ice-wagon stopped at the street door. Georgie's throat was parched. He longed for a bit of ice, just a tiny piece for a pebble would be a handful in his little palm. When the big blustering driver was busy on the sidewalk, the innocent criminal seized hold of a spoke in one of the front wheels and attempted to climb into the wagon. Just then the herse started and the wheel turned, horse started and the wheel turned, carrying the poor child round and into shoulder, and his head was brutsed by the fall. He was tenderly carried into the house and up the narrow stairs by the tender-hearted driver, who berated TURN ABOUT IS FAIR PLAY. himself for not having anticipated the wants of the little one.

Georgie's chances of recovery are not bright. He has a father who is unworthy of him. Neglected childhood is not conducive to the latent strength on which an accident of this sort must levy.

Drink has been the blight of Georgie's home. There are six children, between one and fourteen. The eldest, with the mother, slaves in a factory for enough to pay the rent and buy bread.

A girl of thirteen does all the house work, and a sister of eleven is supposed to mind the two youngest. The toys of these children are limited to a ball and a maimed doll. There must be a whole wagon load among the happy little readers that have lost their novelty. If so, please send a favor to Georgie.

And by way of a luxury, to cool a little the bandaged head and shoulders and Nell Nelson Tells of a Few Met in arm, have you a small hair pillow, an would you be good enough to share its

INDIANA'S BOY ORATOR. A Youth of Five Years Whose Eloquence Delights Vast Audiences. Over five thousand people assembled at Lakeside Park in this city yesterday Conductor (glancing out of the window) afternon, says a Warsaw correspondent No: there's a hunter off there shooting prairie-chickens. We are still in Chicago.

Eastern Boy-When will we get outside of the Indianapolis Journal, to hear the wonderful boy phenomenon, Master Irvin lay Steininger. Jav Steininger, five years of age.

He was advertised as "the Hoosier boy orator," the little giant of Hoosierdom," the most wonderful predigy ever discovered," &c., and the little fellow is exitited to all the praises bestowed upon him.

titled to all the praises bestowed upon him.

Every one in the vast audience was highly pleased with Master Irvin, who denvered two lectures, one upon the subject of "Temperance," and another entitled "Our Battles," and his gestures and emphasis were all that could be executed by the most prefentious orator.

He was accompanied by his father, Mr. Howard Steininger, who save that the child's ability to repeat anything he heard was discovered about a year ago, when he found him delivering a sermon he had heard the day before to the child.

e had heard the day before to the chickhe had held the my before to the chick-ens on his place.

Perceiving that his memory was some-thing unusual, his father proceeded to investigate the ratter, and the discovery was male that his perception was wonder-fully retentive and that he possessed nat-tral oratorical abilities to a wonderful

degree.

It is patents are farming people and reside near the village of Rochester, in Fulton County. They are of German descent and while they are excellent people, neither father nor mother make any pretensions as to education, so that the peculiar qualifications developed in a boy who is but fire years of age are truly wonderful.

The little boy is very gentlemanly in his actions, uses proper suiphasis, makes the points of his discourse with accuracy, uses excellent gestures, and, in short, is a phenomenon in an oratorical way.
